

# PRISM

## PERFORMANCE RISE IN HEALTHCARE

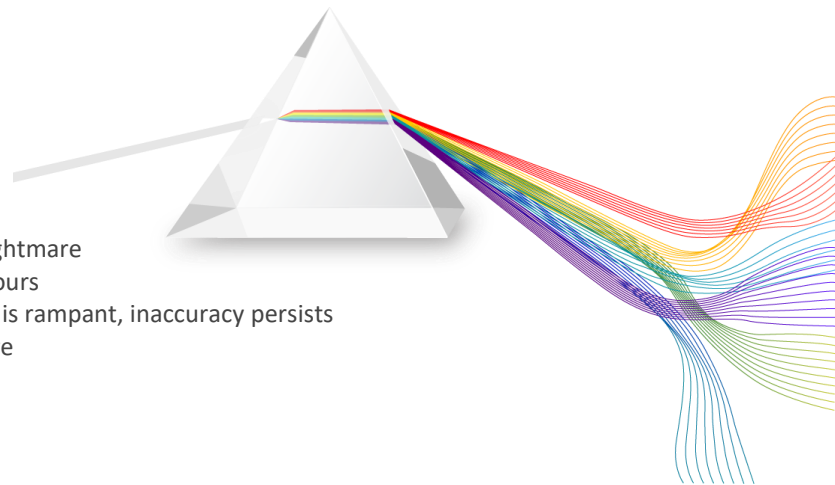

Healthcare business is low-margin, compliance intensive, and data sensitive with increasing demands for population specific quality improvement. Pay-for-Performance model necessitates a more flexible business platform.

### HEALTHCARE ORGANIZATION PAINS

- Executives feel Medical Loss Ratio (MLR) and Admin Loss Ratio (ALR) are unmanageable
- Leadership constantly finds itself working with inconsistent data; decision making could be better
- Financial team is usually operating without scenario planning or any significant risks analysis
- Operations team is too tied up with compliance issues
- Teams are overworking to address unscheduled random data requests (ad-hoc)
- Quality and Medical Management teams are struggling to demonstrate enhanced quality of care
- Provider contracts are a mess ...

### ... and SYMPTOMS

- Excel sheets are the standard working tools
- Lack of automation and high process inefficiencies
- High IP, ER, Rx, and Mental Health PMPM Costs
- Compliance takes up most of the time; audit is a nightmare
- Chasing ad-hoc queries demands too many extra hours
- Data is outdated and all over the place, duplication is rampant, inaccuracy persists
- Impossible to deliver population specific quality care
- Prescription costs are out of control
- Business seems to lack any strategy ...

**CONSEQUENTLY: quality of care is low, margins thinner, and investment risk is very high**

# PRISM DIFFERENTIATION

PRISM Solution is a flexible and extensible business platform. Any set of integrated modules can be developed over PRISM platform. It's not just a tool or just one system but an integrated set of systems which automate Healthcare business processes.

It is crafted specifically for Medicaid. Hence, it addresses improving both Operational Efficiency and Operating Margin for Healthcare business.

Other solutions are often tweaked to 'fit' Healthcare requirements and may result in minimal efficiency improvements and no increase in margins. For example, they may just address some aspects of compliance processes.

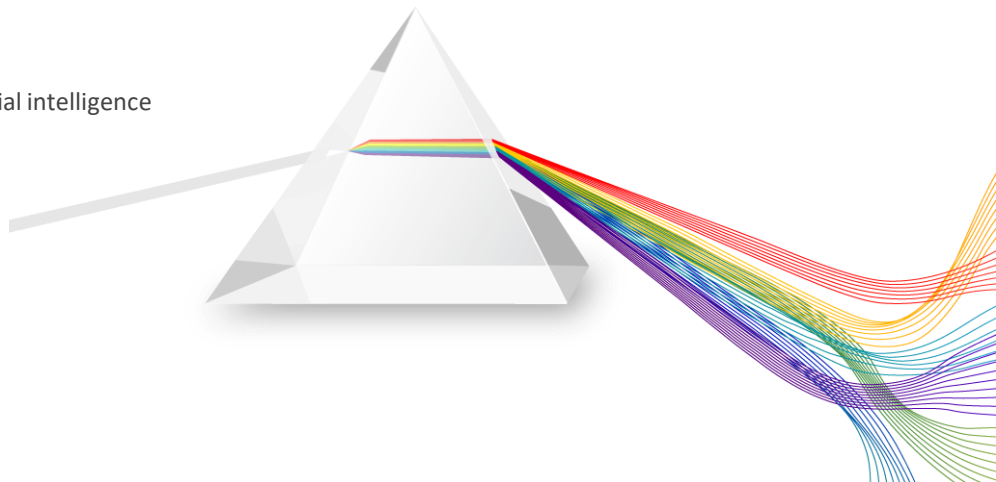

PRISM allows customization to your specific needs – which may vary from one organizational culture to the next. The core philosophy of PRISM is automating processes, connecting tasks with team members thus increasing accountability, and enabling more informed decision making.

## TECHNOLOGY

- Architected for business
- Web and Mobile Friendly
